FRICITION BETWEEN GERMAN AND AUSTRIAN COMMANDERS CAUSES WITHDRAWAL OF LATTER

UNCERTAIN SITUATION IN MEXICO

Gutierrez Assumes Presidency and Carranza Declared a Rebel

SEVERAL GENERALS PREPARING TO DESERT LATTER

NO DATE IS SET AS YET

For the Evacuation of Vera Cruz By American Troops, the Administration Awaiting Further Advice From Disturbed Country—Convention Still In Session.

(Associated Press Telegram) Washington, Nov. 12.—Uncertainty ruled again today in the Mexican situation. General Eulalio Gutierrez has taken the oath of office as provisional president at the Aguas Calientes convention, which simultaneously declared General Carranza, hitherto first chief of the constitutional army as being in rebellion.

Many generals who swore their allegiance to the convention are leaning to Carranza, while some of his most loyal followers are preparing to desert him.

This was the tenor of official dispatches today from American Consul Silliman at Mexico City and Leon Canova, special agent at Aguas Calientes. In the meantime, President Wilson and Secretary Bryan were awaiting further word from Mexico before announcing the date of the evacuation of Vera Cruz. Carranza is still at Cordoba and may move to Vera Cruz to celebrate the departure of the American forces. The convention is still in session at Aguas Calientes with rumors of fighting in the vicinity.

During the last 24 hours Carranza invited Gutierrez by telegraph to meet him in personal conference in an effort to reach an agreement. Gutierrez declined. Carranza submitted a new list of conditions under which he would retire but they were rejected.

General Oregon and Viqueira, the latter a member of Gutierrez's cabinet, did not return to the convention from their visit to Carranza at Cordoba, and the belief in Aguas Calientes is that they will remain loyal to Carranza. Benavides was the only member of the commission who returned. Uncertainty prevails as to the attitude of General Blanco in command of the troops in Mexico City, but latest reports indicate that he may stand by the convention.

The point at which the first important clash is liable to come is in the vicinity of Queretaro where General Pablo Gonzalez, who is loyal to Carranza, is stationed with several thousand troops. The loyalty of a large part of his force is doubted, and another report to the convention said many of his men refused to obey his orders. Fighting at Leon, south of Aguas Calientes was also reported, but no details have arrived.

Woman Dragged From Bed and Held Over Gas Flame Until Life Was Extinct, Police Believe

(Associated Press Telegram) Cleveland, Nov. 12.—That Mrs. Giese Sommy, 22, was dragged from her bed by two men, stripped of her clothing and held over an open gas flame until she was so badly burned that life was extinct, instead of being the victim of a gas explosion as was first reported, was the declaration today of Coroner Byrne and the police, who have been investigating the case. One man has been arrested and the police are searching for the other.

Examination made by the coroner shows that the burns on the body of the woman are confined to a small area and are so deep that the bones

WILSON IS! URGED TO USE POWER

And Compel the Colorado Mine Owners to Accept Plan

TO OPERATE MINES BY FEDERAL AUTHORITY

REVIEW OF STRUGGLE

In Resolution Presented to the American Federation By William Green of Coshocton, Acting for the Mining Department of Federation.

(Associated Press Telegram) Philadelphia, Nov. 12.—A resolution was presented at today's convention of the American federation of labor urging President Wilson to insist that the Colorado mine owners accept the federal plan for peace and if they fail to comply that the president take steps to have the coal mines operated under government supervision. The resolution was filed by William Green, of Coshocton, Ohio, Secretary-treasurer of the United Mine Workers of America, acting for the mining department of the federation. It was referred under the rules of the convention to a committee.

The resolution recited the history of the struggle between the mine owners and miners in that state and asserted that investigations have shown the justice of the miners' cause. Continuing the resolution says: "Resolved, that the thirty-fourth annual convention of the American Federation of Labor call upon the President of the U. S. to insist that the Colorado Coal operators immediately comply with the federal plan of settlement and in the event they refuse that he take such steps as are necessary to have a receiver appointed for the purpose of taking over the mines and operate them in the interest of the people, under federal supervision until such time as the civil and political rights of the people are established."

CANAL BRIDGE IS DYNAMITED BY ENGINEERS

(Associated Press Telegram) Sas Van Gent, Holland, Nov. 11, via London, Nov. 12.—German engineers today dynamited bridges across the Leopold canal at Dageroeke, Stroobridge, St. Laurent, St. Jean and Watervliet, all places in the northwestern part of East Flanders, near the Dutch frontier. The Germans also threw a number of large bombs across the roads leading to the Holland frontier. In this way the flight of peasants, which recommenced on November 8, is made impossible, and the province of West Flanders is entirely cut off from the world.

Since this morning the customary roar of heavy cannon has been lacking.

REPORT 3 GERMAN CRUISERS SUNK IN THE PACIFIC.
(Associated Press Telegram)
London, Nov. 12.—A report was current in the lobbies of the House of Commons this afternoon that three German cruisers had been sunk in the Pacific at a place not specified. No confirmation, however, of this rumor is obtainable.

Negro Insults President Wilson While Committee Waits Upon Him To Protest Against Race Segregation

(Associated Press Telegram) Washington, Nov. 12.—President Wilson, while receiving a delegation of negroes today who came to the White House to protest against segregating the races in government departments, objected to the tone adopted by their spokesman, W. M. Trotter of Boston, and told the committee that if called on him again it would have to get a new chairman. The President added he had not been addressed in such a manner since he entered the White House.

The delegation charged that Secretary McAdoo and Comptroller Williams in the treasury and Postmaster General Burleson had enforced segregation rules in their office. President Wilson replied he had investigated the question, and had been assured

that there had been no discrimination in the comforts and surroundings given to the negroes. He added he had been informed by officials that the segregation had been started to avoid friction between the races and not with the object of injuring the negroes. The President said he was deeply interested in the negro race, and greatly admired its progress. He declared the time to be sought by the negro people was complete independence of white people, and that he felt the white race was willing to do everything possible to assist them.

Trotter and other members at once took issue with the President, declaring the negro people did not seek charity or assistance, but that they took the position that the negroes had equal rights with whites and that

those rights should be respected. They denied there had been any friction between the two races before segregation was begun.

President Wilson listened to what they had to say and then told the delegation that Trotter was losing control of his temper and that he (the President) would not discuss the matter with him.

After leaving the President's private office Trotter, Maurice V. Spencer and others of the delegation declared their talk had been "thoroughly disappointing." They declared they would hold a mass meeting in Washington Sunday to discuss the question.

Mr. Wilson is understood to have told the committee the question was not a political one and that he would not take it up on political grounds.

White Slavers Suspected of Bomb Outrage

SEVERAL HAD BEEN SENTENCED TO LONG PRISON TERMS BY BRONX JUDGE.

Explosion Wrecked Court House Entrance and Three Girls Were Injured.

(Associated Press Telegram) New York, Nov. 12.—One hundred detectives spread a dragnet over New York city today in their quest for the men who wrecked the entrance to the Bronx county court house and the city marshal's office by powerful bombs at 11 o'clock last night.

The detectives followed the theory that the bombs were exploded by a band of traffickers in women, seven of whom had been sentenced to long prison terms. More than a score of letters had been received by county judge, Louis D. Gibbs, who sentenced them, warning him of vengeance. Some of them threatening him with "the death King Humbert received. One of the bombs was in-

tended for him, detectives believe and was placed at a spot where he was expected to pass out of the building at the end of the night session of his court. The other bomb, apparently, was meant for the city marshal, John C. Hoedling. Mr. Hoedling obtained the evidence which

Tennessee and North Carolina Safe In Harbor

(Associated Press Telegram) Washington, Nov. 12.—The armored cruiser Tennessee in the Mediterranean reported early today she had been in wireless communication with the cruiser North Carolina yesterday and that the ship was safe in Beirut harbor.

The message was sent by Captain Gordon C. Dyer of the Tennessee and reached the United States by relay of wireless cable.

It was six words long, simply announcing the safety of both ships but made no mention of the reported landing of bluejackets from the North Carolina at Beirut. The Tennessee reported a loss of persistent rumors of the last two days untraceable to any source and widely circulated through the country that the North Carolina had been sunk by a mine.

Crown Prince Blamed For Retreat From the Center Line Allowing Russians to Advance

Scene of Interest Shifts From the East to West Flanders Where the German Invaders In Possession of Dixmude Are Less Than Fifty Miles From Calais, One of Their Objective Points

EXPECT OCCUPATION TO BE TEMPORARY IN DIXMUDE

Which Would Be In Line With the Teuton Policy Heretofore Manifested in the Great Struggle Through Belgium and in Northern France—Germans Are Renewing Attacks Almost On the Coast Line—Another British Naval Loss and Other Events Tend to Cool London Optimism.

(Associated Press Telegram) London, Nov. 12.—The Russian successes in the east which for a time were a predominant feature of the war news must again divide space with the account of rekindled activity on the part of the Germans in West Flanders, where the forces of Emperor William have disproved the contention of the allies that their attempt to force their way to Dunkirk or Calais had finally failed.

With Dixmude in their possession the invaders were today less than fifty miles from Calais and much nearer Dunkirk, and the fight they have been putting up in the face of tremendous losses, seems to bear out what has been so often said—that they will not abandon this struggle to reach the coast unless they are utterly crushed. The English and French theory is that the holding of Dixmude is only temporary, that its history will be much the same as that of other towns which have been taken and retaken in the fighting on the Yser.

In certain places north of Dixmude the Germans are at the east on the left bank of the Yser river, that is on the side nearest the French coast towns, and their attacks instead of concentrating to the southward below Ypres, apparently have been renewed almost on the coast line. Here they

drove the allies from Lombaertye, only in turn to be driven out themselves. The official announcement given out by Paris this afternoon says that the Germans again are trying to take Lombaertye, which is to the north of Nieuport and within a stone's throw of the sea. How they can operate in this locality if British and French warships are still standing guard off the shore is not quite clear to British observers. For some time past there has been no mention of naval activity on this coast, but it has been assumed that this was explained by the reported German retirement from the coast of France and Belgium and the news that they were delivering their attacks further to the south.

The wave of optimism which has been sweeping England for the past week was checked today by news of the occupation of Dixmude by German forces, and the renewed indication of the peril from German submarines by the fate of the torpedo gunboat Neger, which yesterday morning was destroyed by a torpedo launched from a submarine of the enemy. This occurred within sight of the English shore in the narrow part of the channel where several hundred ships lay at anchor.

The importance of the fall of Dixmude is difficult to estimate without an exact knowledge of how the

Dixmude Loss Recompensed By Belgian Advance, Which May Threaten German Flank

(Associated Press Telegram) Paris, Nov. 12.—The battle in Flanders is as far as ever from a decision, according to the official communications and judging from stories told by eye witnesses arriving from the battle front. The Germans have given an emphatic denial of the reports that they were in retreat by carrying Dixmude, on the Yser, 12 miles north of Ypres and on the road to Dunkirk, which the Germans are striving to attain. French bluejackets at Dixmude had held the town against them in the face of fierce attacks for the past week, but were finally compelled to give way. The allies attempt to drive the Germans out again have thus far failed. On the rest of the front, as far as the river Yser, the situation, according to latest advices, remains practically unchanged.

As the principal action lately has centered to a larger extent around Dixmude the Germans are entitled to claim the advantage, but the French are strongly posted in the vicinity and the possession of the village so far has availed them but little.

The setback at Dixmude, in the opinion expressed here, is somewhat compensated for by the progress made by the Belgians along the Nieuport-Gend road. It followed up this advance apparently would threaten the German flank.

East and south of Ypres the Germans seem to have found fresh masses of troops to hurl into the murderous fray but the allies seem to be holding their own. The country here is undulating, well wooded and covered with a multitude of farms which are surrounded by large elms. The villages are few and small and most of the

population is centered on these farms which are distant from each other, at the most, from two to three hundred yards. These innumerable and solidly built brick houses, with their walled country yards and some times with deep ditches make excellent bases for small detachments and play an important part in the long battle. The struggle is taking place among the farms in the direction of the border towns of Comines, Wervek and Melin.

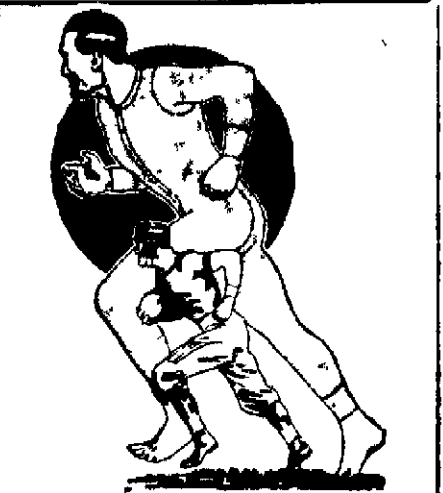

The combats around Labasse and Arras where the British are operating, have shown no decisive change. The ground here has been successfully and steadfastly maintained, the British repelling attack after attack.

Aviators report the movement of troops and heavy guns on a large scale in the interior of Belgium, some going towards German, the others toward Antwerp and yet others toward Courtrai. The explanation of this movement appears to be that solid troops, capable of operating in the open, are being sent to eastern Prussia, their places in the trenches being taken by less trained men. The guns being sent to Antwerp, it is believed here, are due to a desire to have a strong flank position against the allies in case they advance on Brussels.

The object of the continuous German attacks in Belgium and in the Armentieres region according to some of the French military critics, is to achieve a real victory which will oblige the allies to fall back in order to re-organize and repair its losses. The Germans would then leave a small force as they deemed safe to hold the allies and send the rest against Russia.

FEARFUL HUMOR COVERED FACE— RESINOL CURED

Paterson, N. J., Dec. 9, 1913: "About a year ago my face began to crack and get scaly in blotches. It soon got worse and my face was all spotted and rough, and it itched me very much at night, and caused me no end of discomfort. After a month or so, pimples and blackheads began to show, first in small numbers and then gradually covering my entire face. It was awful. The pimples were sore and the rash was itchy and my face had a most unsightly appearance. I could get no relief. Resinol Soap and Resinol Ointment caused me instant relief. By the time another jar of Resinol Ointment and cake of Resinol Soap were gone, I can truthfully say that it was a complete cure. My face had assumed its former color and looks, due to Resinol Soap and Resinol Ointment. They are, I think, the best for any skin trouble." (Signed) Robert Troyano, 209 E. 21st Street. FLIGHT

OF CROWN PRINCE'S ARMY TO-
WARD FATHERLAND, WEAK-
ENED THE CENTER LINE

Russians Poured Into Gap Between
the Planks, Causing Them
to Crumble Back.

(ASSOCIATED PRESS TELEGRAM)
London, Nov. 12.—The Petrograd correspondent of the Daily Mail sends the following:
"It is now admitted semi-officially but not yet mentioned in the official communications, that it was the failure of the German crown prince to hold his position in the center which compelled a retreat along the whole line. While General von Hindenburg on the left and the Austrians on the right were both maintaining their positions, the crown prince's army was fleeing back to the fatherland."
"The Russians poured in between the wings thus left in danger and attacking them, on two sides, forcing them to scramble back to the frontiers and losing terribly all the way."

The excuse made in Germany of bad roads is ridiculed here since, in spite of bad roads, the Russians accomplished marvels in marching. The Russians, unlike the Germans do not depend upon the resources of the country they are traversing but bring ample provisions with them.
"It appears that six German princes were killed in this battle, three of them Lappe family and one each of the Houses of Hesse, Waldeck and Reuss."

Will Cigarettes Make A Woman Lose Hair?

College Professor Says Smoking Speeds
the Dandruff Germ.

There's woman—and man too—troubled with thin, scanty hair, will be interested in the statement of the university specialist who says that tobacco smoking causes dandruff and dandruff causes hair loss. The specialist has found that smoking causes poor blood circulation, and stops the needed nourishment from finding its way through the capillaries to the hair roots, which then get unhealthy and are attacked by the dandruff germ. It is then certain that the only way to regain long, healthy hair growth is to destroy the dandruff. Taking medicine internally will not do it. Giving the hair roots nourishment from the outside will not do it. Let your scalp breathe. The little pores holding the hairs have the old demand they have for blood circulation—keep your scalp clean, healthy and cool and your hair will grow naturally of its life.
"Wildness proves it surprising with the first few days, for the dandruff starts from the head in showers on combing. But more important, the sick hair pores absorb its nourishment, the common vegetable oils in which no dandruff-terminating dandruff germ can live. Drug stores always have 'wildness' in stock and a case of dandruff bottle will last you considerable time."

TONIGHT "SHAM"

WILL BE GIVEN
BY NANCY BOYER.

Without a doubt the most notable offering of this week, so far, by the Nancy Boyer Company, was last night's production of "The Conspiracy." The police detective comedy if it may be called a comedy, was given a most careful production, with every member well assigned to their different roles. Miss Boyer carried well, one of the hardest parts of her career and more than proved herself equal to the task assigned her. Mr. Testa as the expert criminologist gave a very fine characterization of the part.

Tonight, will see the presentation of Henrietta Crossman's greatest success "Sham." Dealing with the petty deceptions of society life. As Katherine Van Riper, Miss Boyer has a role exactly suited to her pleasing personality, and naturally fits into the part as well as having a splendid opportunity of wearing some of her prettiest gowns.

As the story goes Katherine Van Riper is a young woman who has a small income and wants to, and does pretend that it is a big one. So she bluffs and she shams and gets herself in many difficulties. Her aunt tries to marry her to a rich man and she pretends and takes herself through life until she meets an "honest man" who calls her bluff and causes her to admit that her life is a "sham" and that she wants to start her life over again. This will prove one of the distinct treats of the week. It will be given a production worthy in every way, the same as when Henrietta Crossman presented "Sham" at the two dollar prices.

For Friday's matinee, "When We Were Twenty One" will be repeated. This is one play that contains so many good things, that one has many of them to remember for days, and at the same time to have spent a most enjoyable afternoon.

SOAP IS BAD FOR THE HAIR.

Soap should be used very sparingly, if at all, if you want to keep your hair looking its best. Most soaps and prepared shampoos contain too much alkali. This dries the scalp, makes the hair brittle, and ruins it.

The best thing for steady use is just ordinary mulsified coconut oil (which is pure and greaseless). It's cheaper and better than soap or anything else you can use.

One or two teaspoonfuls will cleanse the hair and scalp thoroughly. Simply moisten the hair with water and rub it in. It makes an abundance of rich, creamy lather, which rinses out easily, removing every particle of dust, dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves the scalp soft, and the hair fine and silky, bright, lustrous, fluffy and easy to manage.

You can get mulsified coconut oil at any pharmacy, and a few ounces will supply every member of the family for months.

HEBRON

The infectious disease among cattle and hogs is the main topic of conversation now heard in our village.

Prof. Frank Roberts of Columbus arrived here Tuesday evening to meet the choir of the Church of Christ, prior to his coming for the revival services, which will commence on the evening of November 15. Everybody invited.

Mr. Theodore Belt of Millersport was the guest of his brother, Editor T. L. Belt and family, on Monday.

Misses May Hoover, Nettie Wilkin and Eva Jones of the Licking County Children's Home, spent Monday night with Mr. and Mrs. James Jones (nee Fullerton) formerly in charge of the dining room at the home.

Mr. Wolfe, who has been in the gas fields at Oklahoma for the past few months, arrived here last week and contemplates spending the winter with his family here. They are now located in the "Atwood Flats."

Miss Nellie Harter left here Tuesday to resume her work in a store at Newark.

Miss Edward Gockenback spent several days in Columbus and was accompanied home by her father, who will spend the winter at Arlington Hotel.

Mrs. Wm. Combsford delightfully entertained the Priscilla club Wednesday. Ten members responded to roll call. The afternoon passed quickly with needle work, followed by a delicious luncheon. The next meeting will be at the home of Mrs. Maggie Cully.

Miss Adda House of Defiance, who has been visiting relatives here the past week, is now the guest of her brother, Mrs. George House and family of Newark.

Miss Marie Smith of Mortimer, O., spent Sunday with her grandparents, Mr. and Mrs. S. S. Sawyer.

Mr. Jacob Mowery has returned home after spending several weeks, with his mother at Putnam county.

Mr. and Mrs. B. R. Lemley entertained relatives from Canada last week at their home in East Main street.

Contractor Ed Avery, who purchased the old Baptist church of Mrs. David Woodard, is now moving it on his lot on Second street.

The Breeze contest is now growing in interest and some hustling is "going on."

The parties who stole the large pumpkin jack-o'-lantern from the D. P. Burch home on Halloween evening have been found out and expect soon to have them before the mayor.

The W. C. T. U. was entertained at the home of Mrs. Sarah Hutzell, Tuesday evening.

The Ladies Aid society netted the sum of \$15 at their election dinner.

Prof. Harshnager, superintendent of high school, has organized a basketball team.

Mr. and Mrs. Lydia have moved to their new home on Main street.

Mr. Johnson and family are now occupying a part of Mrs. Jane Davis' residence.

CAUCASIAN ARMY REPULSED TURKS; TOOK MUNITIONS

(ASSOCIATED PRESS TELEGRAM)
Petrograd, Nov. 12.—An official communication from the general staff of the Caucasian army under date of November 10 says:

Recently Convicted in London for
Espionage in Egypt—Nature
of His Offense.

(ASSOCIATED PRESS TELEGRAM)
London, Nov. 12.—The Chronicle today describes the nature of the offense of Lieutenant Mors, a German officer who was recently imprisoned for life for espionage at Alexandria, Egypt.

Mors was despatched to Egypt five years ago and succeeded in being appointed a lieutenant in the Egyptian gendarmierie. His mission, according to the Chronicle, was to foment a local rebellion among the various nationalist princes and to get them to agree to assist him. When Mors broke out he was recalled to Germany, and was sent back to Egypt in a fortnight as a medically unfit for military service, but actually to blow up a steamship in the Suez canal so as to block the passage of reinforcements from India and Australia.

Major general Sir John Maxwell, commander of the British forces in Egypt, heard of the plot and had Mors arrested. In his file were splendid maps of the Suez canals and instructions how to sink vessels there. Two dynamite bombs were found in his lodgings. At his trial, according to the Chronicle, Mors confessed that he received \$50,000 for the work entrusted to him. He gave a list of his associates and they have been arrested.

HOW TO PREVENT ACID STOMACHS AND FOOD FERMENTATION

By a Stomach Specialist

As a specialist who has spent many years in the study and treatment of stomach troubles, I have been forced to the conclusion that most people who complain of stomach trouble possess stomachs that are entirely healthy and normal. The real trouble, that which causes all the pain and difficulty, is to be found in the stomach, aggravated by food fermentation. Hyperacidity irritates the delicate lining of the stomach and food fermentation causes wind which distends the stomach abnormally, causing that full bloated feeling. This both acid and fermentation interfere with and retard the process of digestion. The stomach is usually healthy as a normal, but irritated almost past endurance by these foreign elements—and it is a compromise over 90 per cent of all such difficulties—the first and only step necessary is to neutralize the acid and stop the fermentation by taking a little warm or cold water immediately after eating, from one to two teaspoonfuls of liquid maltine, which is doubtless the best and most really effective antacid and food corrective known. The acid will be neutralized and the fermentation stopped almost instantly, and your stomach will at once proceed to digest the food in a healthy normal manner. For once to say, "I have found other forms utterly lacking in its peculiarly valuable properties"—P. J. G.—Advertisement.

DELICATE OPERATION WAS ENTIRE SUCCESS.

Wallace Diment, proprietor of the Diment Candy Store, has received word from Fremont, O., that his mother, a well known nurse of that city has just been discharged from the city hospital, where he had undergone an operation after being kicked in the face by a horse. The right cheek bone was struck and shoved upwards under her eye, but was not fractured. The operation was a delicate one and was entirely successful, the cheek bone being restored to its former position. Mr. Diment is one of the well known horsemen of Northern Ohio, having sales stables in Sandusky, Fremont and Clyde.

NOTED EVANGELIST DRAWS BIG CROWDS

Another large audience attended the revival services at the East Main Street M. E. Church last night to hear Evangelist Lee Starke's sermon on "A Clean Heart." This was a heart-searching message, and many declare that it was the ablest talk they have ever heard on the human heart. The address was full of human interest, and created a deep impression on all present. Much interest is being manifested in the meetings and many fear the church will not begin to accommodate the crowds who will want to hear this fearless preacher of the "Old Time Gospel." This is the Evangelist's fifty-first birthday, and he is going to celebrate it by preparing and delivering a special address on "Spiritual Birthdays," or "Christian Citizenship." A vast crowd will no doubt hear this special talk. Special music and bright, inspiring songs will be a feature of the service tonight. The public generally is cordially invited, the service of song begins promptly at 7.30.

CHURCH BAND ENTERTAINED.

The Go-To-Church band of the First Presbyterian church was entertained in the church dining room Wednesday afternoon from four-thirty to six o'clock. This is a band of young people under the age of sixteen who go to the morning church service every Sunday. Elizabeth Criswell, a member of the band, gave a very pleasing recitation followed by a most splendid talk and story by the Rev. Don D. Tullis of the Second church. Then Miss McDonough told the young people the story of "Patsey" in such a delightfully charming way as held their closest attention. Mrs. Billingslea was hostess for the occasion and had appetizing refreshments served to all.

JACKSONTOWN U. B. REVIVAL.

WOMAN REFUSES OPERATION

by Taking Lydia E. Pinkham's Vegetable Compound.

Logansport, Ind.—"My baby was over a year old and I bloated till I was a burden to myself. I suffered from female trouble so I could not stand on my feet and I felt like millions of needles were pricking me all over. At last my doctor told me that all that would save me was an operation, but this I refused. I told my husband to get me a bottle of Lydia E. Pinkham's Vegetable Compound and I would try it before I would submit to any operation. He did so and I improved right along. I am now doing all my work and feeling fine."

"I hope other suffering women will try your Compound. I will recommend it to all I know."—Mrs. DANIEL D. DAVIS, 110 Franklin St., Logansport, Ind.

Since we guarantee that all testimonials which we publish are genuine, is it not fair to suppose that if Lydia E. Pinkham's Vegetable Compound has the virtue to help these women it will help any other woman who is suffering in a like manner?

If you are ill do not drag along until an operation is necessary, but at once take Lydia E. Pinkham's Vegetable Compound.

Write to Lydia E. Pinkham Medicine Co., (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

Thanksgiving Turkeys.

Provision dealers get a little more worried every year about the supply of turkeys. Statistics show that less than half as many turkeys are being raised as ten years ago. It is not an easy thing to collect a supply of good birds and sell them at a price that will not seem extortionate.

Two diseases, blackhead and cholera, are raising the mischief on the turkey farms. Ninety per cent. of the young turkeys afflicted with blackhead are said to die.

A great deal of meat is sold as turkey by hotels and restaurants that appears like the real meat only in color. It has gone through cold storage, and compared with the rich autumnal taste of the real thing, is flat and tasteless.

The sight of a plump, well browned turkey in the center of the Thanksgiving dinner party gives an air of festivity that scarcely anything else can supply. The rich savory meat fulfills all expectations given by the eye. There is a rich business reward for men who can find some means to raise turkeys secure from the diseases that attack them.

Foot and Mouth Disease.

The widespread outbreak of foot and mouth disease in cattle which has just struck Licking county, fortunately comes at a period when people realize the necessity for care of domestic animals.

Crude ideas formerly prevailed regarding the treatment of animals suffering from sickness or accident. One man says he can remember when one of his father's calves or cows would occasionally get a potato or other obstruction stuck in its throat. The entire family would turn out and chase the calf around the barn, hoping to dislodge the obstruction by choking. If that did not work the next thing was for every one to ram his hand down the animal's throat, to grasp the obstruction. The final resort was to hold the calf's throat down on a rock, and smash the obstruction with a hammer.

In those days, trained veterinaries were very rare. Farmers would

Edward Earle Purinton.

A series of articles under the general heading "Efficiency and Life" that will be especially interesting to Granville and Newark people because they are to be written by a former Granville man, Edward Earle Purinton, will start in the New York Independent November 16th.

Mr. Purinton, who is the son of the former president of Denison University, Dr. D. B. Purinton, has spent twelve years studying the personal efficiency methods of corporation presidents, hygienic leaders, social service authorities, psychological experts and business engineers. The results of this study are to be given in Mr. Purinton's articles in the Independent which, as practically everybody knows, is one of the leading weekly literary publications of America.

Mr. Purinton will tell what efficiency is, will analyze the relation of thought to efficiency, will show the effects of food and drink on efficiency, demonstrate how and when and what to eat to produce the maximum of energy, will indicate how leading ads or impairs efficiency and will present other factors in efficiency of equal interest and importance considering the relation of efficiency to such subjects as the day's work, food, thought, dress play, buying, selling, money, building methods, suburban life.

Mr. Purinton writes well and he thinks well. He is fortunate in having so excellent a medium for expression of his thought and the Independent is to be congratulated upon securing his services for this series of articles which will attract widespread attention and which will be of special interest here in Licking county. Mr. Purinton's former home.

Belgians Need Help.
President James of the University of Illinois has suggested that a large sum for the war-stricken Belgians might be easily raised by bringing together for a final contest this year the college football teams that may prove victorious in the great eastern and western series now in progress. Three places have been suggested for the match—the Yale bowl, because of its 75,000 seating capacity; the Polo Grounds in New York; or the White Sox baseball grounds in Chicago, with a capacity of 50,000. Mr. Comisky has already offered the use of the latter. Such a contest, with anything like decent weather, would attract an enormous throng. It would, in a way, be a game for the "national championship." The winners would be hailed as the most proficient team that the year had produced. That fact would assure large receipts.—Chicago Herald.

Length of War.
"A distinguished French officer" is quoted as saying that he does not believe the present war will be concluded before 1917. That would give it about the duration of our civil war. The world will hope that the distinguished Frenchman is all wrong in his calculations. It is difficult to see how hostilities could be so prolonged on their present scale without involving a large part of the civilized globe in bankruptcy.—Philadelphia Record.

New Jersey Democrats.
New Jersey Democrats will go to the polls gladly in 1916 to vote for two Jersey Democrats who have made good in every particular—Woodrow Wilson for President and Lindley M. Garrison for Governor.—Salem (N. J.) Sunbeam.

Cold Winter for Tammany.
The state comptroller-elect, under the incoming administration in New York state, announces that he will retain in office and appoint only men who are competent. In the same breath he gives as his opinion that most of the Murphy men are incompetent, so that it appears he will not hurt his conscience any when he makes way for their successors. Taken all in all, it looks like it would be a cold, hard winter for the Tammany men in the Empire state.—Dayton News.

Once in a while you see a man whose Adam's apple is bigger than his chin.

There are a whole lot of unsolved Mysteries. But why is the pocket on the inside of the vest?

A Camel going through the eye of a needle is a piker compared with a fat woman getting into a straight-front corset.

A woman can get a bargain when she pays 70 cents for something worth a dollar. But she will spend \$300 for a touseau when she marries a 30-cent man.

A man will treat his wife as though she was a poor relation and then wonder why she likes to talk to other men.

If a man finds one of his wife's hairs in the butter he gets so mad that he won't eat any dinner. And a few hours later he will stop at a street corner wagon Restauraw and eat five frankfurters made out of mule meat and enjoy them.

Some people in this world will never be happy as long as they know that any one else is happy.

MINE OWN.

My concertina sobs and shakes, for it's in poor repair, and neighbors say the noise it makes would cause a saint to swear.

My neighbors come, on protest bent, when I on it perform: "Why don't you buy an instrument that's up to date?" they storm.

"Pianos now are in the reach of even the poorest man, and you might go and buy a peach on the installment plan. Pipe organs, too, on easy terms, are sold most everywhere why; play a thing that squeaks and squeals, and murders every air!" "Because," I answer, "tis mine own, all paid for, long ago; and though it has a beastly tone, that fills the town with woe, I'd rather hear its music sad, that keeps me in a sweat, than own the fairest, sweetest Strad, for which I'd gone in debt. I'd rather it should make me sore with discords, every day, then have collectors at the door, demanding an instant pay. The humble whistle, built of tin, by local plumber made, beats organ, flute or violin for which you haven't paid. My concertina seems a crime to folks like you and yet, I find that music most sublime which doesn't hint of debt."

IT HAS OFTEN BEEN CLAIMED

that the higher grades of stocks and bonds regularly listed on stock exchanges were a good investment BECAUSE THEY COULD ALWAYS BE SOLD.

The fallacy of this claim is now apparent when the stock exchanges of the world have been closed for months.

Even with the exchanges open, stocks and bonds listed there, while they can be sold, cannot always be sold at a fair price. Prices are influenced by speculation and the least scare sends them tumbling.

The one stable, substantial, always safe investment is a first mortgage on homes and gilt-edged productive real estate.

This is the way WE invest your money when it is deposited here.

And in 34 years we have never asked any one to wait for his money, nor has any one ever even had it suggested to him that he take less than every penny he had invested, with credited interest.

GIRLS! HAVE BEAUTIFUL, LUSTROUS, FLUFFY HAIR--25 CENT DANDERINE

To be possessed of a head of heavy, beautiful hair; soft, lustrous, fluffy, wavy and free from dandruff is merely a matter of using a little Danderine. It is easy and inexpensive to have nice, soft hair and lots of it. Just get a 25 cent bottle of Knowlton's Danderine now--all drug stores recommend it--apply a little as directed and within ten minutes there will be an appearance of abundance; freshness, fluffiness and an incomparable gloss and lustre and try as you will you cannot find a trace of dandruff or falling hair; but your real surprise will be after about two weeks' use, when you will see new hair--fine and downy at first--yes but really new hair--sprouting out all over your scalp--Danderine is, we believe, the only sure hair grower; destroyer of dandruff and cure for itchy scalp and it never fails to stop falling hair at once.

If you want to prove how pretty and soft your hair really is, moisten a cloth with a little Danderine and carefully draw it through your hair--taking one small strand at a time. Your hair will be soft, glossy and beautiful in just a few moments--a delightful surprise awaits everyone who tries this.

Norman Kings and War.

The Norman kings had a way of their own of making money from their warlike preparations. William Rufus in the sixth year of his reign, "caused 20,000 foot to be lifted in England to rendezvous in Normandy. But when they were come to the sea coast in order to be transported he sent them all home again after exacting 10 shillings from each of them for their diet." Years afterward Richard I., according to the old chronicle, "ordained that there should be jousts and tournaments throughout England for the better exercise of men in martial affairs, yet so that all persons should pay for their licenses to bear a part in these exercises after the following rates: Every earl 20 marks, every baron 10 marks and such as had no land 2 marks."

She Couldn't Do It.

Precise Boarding Mistress--"Mr. Blunt, shall I tender you some more of the chicken?"
Mr. Blunt--"No, thank you! But, if you can tender this place you have already served me, I shall be greatly obliged to you."--Christian Register.

HEAD AND NOSE STOPPED FROM A COLD? TRY THIS!

Your cold will break and all gripe misery end after taking a dose of "Pape's Cold Compound" every two hours until three doses are taken.
It promptly opens clogged-up nostrils and air passages in the head, stops nasty discharge or nose running, relieves sick headache, dullness, feverishness, sore throat, sneezing, soreness and stiffness.
Don't stay stuffed up! Quit blowing and snuffing! Ease your throbbing head--nothing else in the world gives such prompt relief as "Pape's Cold Compound," which costs only 25 cents at any drug store. It acts without assistance, tastes nice, and causes no inconvenience. Accept no substitute.

'SQUIRE F. S. SCOTT MAKES A VISIT TO GOV.-ELECT WILLIS

Hon. Fletcher S. Scott, exalted ruler of Newark lodge, No. 391, B. P. O. E., was a visitor in the city Wednesday, guest of Attorney Will C. Hare, and was shown over the city by that gentleman, inspecting the handsome Elk home on East Wyandott avenue and visiting the historic mission church, old Indian mill and the ground where Col. Wm. Crawford was burned at the stake by the Wyandott Indians.

Mr. Scott is one of the leading Republican politicians of Licking county and was on his way home to Newark from Ada, where he had been the guest of Governor-elect Frank B. Willis, the two gentlemen having been fast friends for a number of years. Mr. Willis was a member of the faculty of the Ohio Northern university when Mr. Scott was a student and a member of the ball team of that institution.
Mr. Scott was greatly impressed with the beautiful scenic surroundings of the old Indian village and the hospitality of its citizens and expressed the desire that he might soon return for a more lengthy visit--Upper Sandusky Union-Republican.

A NEWARK MAN'S EXPERIENCE.

Results Tell The Tale.

Can you doubt the evidence of this Newark citizen.
You can verify Newark endorsement.

Read this:

William H. H. Deenis, 50 German St., Newark, says: "I had such a bad back I couldn't work. If I tried to bend, a sharp stitch caught me and almost doubled me up. Nights I wasn't able to sleep from the dull pains across my joints and in the morning I couldn't put my shoes on. My wife often had to assist me to dress. The kidney secretions passed too frequently every night and got me out of bed. The secretions also contained heavy sediment. I failed to get any benefit from the different remedies I tried, until a neighbor told me about Doan's Kidney Pills. I used three boxes; the first didn't help me much, but the second did and the third made a complete cure. Today I am in good health and have a strong back."

Price 50c, at all dealers. Don't simply ask for a kidney remedy--get Doan's Kidney Pills--the same that Mr. Deenis had. Foster-Milburn Co., Props., Buffalo, N. Y.

Sitting Cross Legged.

The next time you ride in a street car notice the number of people who sit cross legged. It has been estimated that four-fifths of them do. Probably you do. A prominent London physician has investigated the habit, and his advice is "don't sit cross legged." He states that the prime objection to the habit is that the return flow of blood is stopped at the knee, the result being that the veins in the leg swell up. All of the weight is thrown to one side of the body, the under leg is likely to go to sleep. The body should be equally balanced. Much crossing of the legs is also dangerous in that it is likely to cause lopsidedness. The limbs should be allowed to rest easily, so that the flow of blood is natural and the body equally balanced.--American Boy.

A Good Trap.

Wife--"Oh, George, do order a rat-trap to be sent home today."
George--"But you bought one last week."
Wife--"Yes, dear, but there's a rat in that."--Red Heart Review.

Here Is Good News for Stomach Victims

Some very remarkable results are being obtained in treating stomach, liver and intestinal troubles with pure vegetable oils, which exert a cleansing, soothing and purifying action upon the lower bowels, removing the obstructions of poisonous feces, preventing their absorption by the blood. This done, the passage from the stomach and bowels is free and the troubles quickly disappear.
George H. M., a leading Chicagoan, cured himself and many of his friends of stomach, liver and intestinal troubles of years' standing by the use of this powerful and successful remedy. He has since been placed in the hands of druggists all over the country, who have sold thousands of bottles.
Though absolutely harmless, the effect of the medicine is sufficient to convince any one of its remarkable effectiveness, and within 24 hours the sufferer feels like a new man. May's Wonderful Stomach Remedy is now sold here by F. D. Hall & H. G. Marshall.

DON'T BE A VICTIM OF SUBSTITUTION

There is but one genuine ROUND OAK stove. For over forty years the Round Oak Folks have concentrated their efforts in the production of this heater, which is to-day, in principle, scientifically correct. The prestige of this stove has stimulated over one hundred other manufacturers to imitate it in appearance and name, but as every imitation is always inferior to the original, so has it been with the imitations of this strong, simple, durable heater, which has always "delivered the goods."

Burns all fuels successfully and economically. Holds the fire forty-eight hours, and gives a lifetime of service. So well recognized is the prestige and value of this stove, that after fifteen or twenty years of service, it brings more, secondhand, than cheap imitations do on the dealer's floor.

Insist on securing the original. We recommend and sell it.

LIST IS BEING EXTENDED BY NEUTRAL NATIONS AND AUSTRIANS SUFFER.

Petroleum is Scarce and Owners of Automobiles Can Get Little Gasoline.

(ASSOCIATED PRESS TELEGRAM)

Venice, Via Paris, Nov. 12.--Austrian manufacturers are finding increasing difficulty in procuring raw materials from abroad. Neutral states constantly are restricting the classes of wares permitted to be exported.
Roumania has just added petroleum to the prohibited list.
This creates a serious situation for Austria since the Russian occupation of Galicia has interfered greatly with the working of the oil wells there. For weeks past it has been virtually impossible for private persons to obtain gasoline for automobiles.

General Potiorek commander of the Austrian army operating against the Serbians, has issued a general order to the fifth and sixth armies fighting in Serbia to do their utmost to break the last resistance of their opponents and end the campaign before winter sets in with all the terrible sufferings which would follow.
The only news appearing in the Vienna press from the Galician scene of war is the official announcement that the post-office has suspended entirely the parcels post service for Galicia.
The cholera cases are steadily increasing in number in Vienna. On Monday 26 cases were reported.

Try This For Your Cough
Thousand of people keep coughing because unable to get the right remedy. Coughs are caused by inflammation of Throat and Bronchial Tubes. What you need is to soothe this inflammation. Take Dr. King's New Discovery, it penetrates the delicate mucous lining, raises the phlegm and quickly relieves the congested membranes. Get a 50c. bottle from your druggist. "Dr. King's New Discovery quickly and completely stopped my cough," writes J. R. Watts, Floydale, Texas. Money back if not satisfied, but it nearly always helps.

Our Leading Athletes

Join with other famous Americans
in Praising Tuxedo Tobacco

OUR world-famous athletes—the men who triumphed for America at the Olympic Games in Stockholm—are among the thousands who declare that Tuxedo is not only extremely enjoyable, but beneficial.

Famous Americans in every walk of life—doctors, lawyers, actors, singers, public speakers, statesmen, business leaders—smoke and endorse

MARTIN SHERIDAN
"Tuxedo is a strong card with me. I advise all athletes to stick to Tuxedo. It is the one tobacco that will help them, keep them in trim, prevent them from going stale. Tuxedo leads—bar none."

CASTON STROBINO
"Tuxedo is the tobacco for the athlete. It never hurts my wind, and always steadies my nerves. Tuxedo for me."

MATT McGRATH
"No athlete need fear to smoke as much as he wants, if he uses Tuxedo. It's a general help to any man. A pipeful of Tuxedo puts new life into me."

Tuxedo

The Perfect Tobacco for Pipe and Cigarette

Tuxedo grew rapidly in public favor without advertising; its natural growth reached the stupendous total of fifty or sixty million packages a year. Not until the past few months has it been possible to keep up with the demand for Tuxedo. Now increased facilities make it possible for every man to smoke this best of tobaccos.

Tuxedo is fine, ripened Burley tobacco of the highest grade—aged until thoroughly mild and mellow. Then treated by the famous "Tuxedo Process," that removes the last trace of "bite" and develops all the delicious Burley fragrance and flavor. Pure, mild, delightful Tuxedo is absolutely non-biting—try it.

DAMAGE CHURCH**

(ASSOCIATED PRESS TELEGRAM)
London, Nov. 12.—The Amsterdam correspondent of Reuter's Telegram company telegraphs the following:
"Shells continue to blow up bridges and that among the structures so destroyed is the bridge near Heyst, in west Flanders. Sentries are guarding the railways from Bruges to Ghent, from Courtrai to Ostend and so forth.
"The allies continue to occupy Ypres, but shells falling in town yesterday killed four children. Aeroplanes are reported to have dropped bombs which damaged the church and town hall and set fire to several other buildings.
"The Kaiser, in journeying through Flanders, visited Courtrai and expressed his satisfaction to the municipal authorities for the manner in which the German troops are quartered.
"From the Neuport zone only feeble gun firing was heard on Wednesday.
"Trainloads of wounded are continuously being transported from the battle line."

Missionary Meeting.
The Missionary Society of the First Presbyterian church will meet in the church parlors, Friday afternoon at 2:30 o'clock.

Guild Meeting.
The Otterbein Guild of the East Main Street U. B. church will meet at the church this evening at 7:30. Any and all girls invited.

On Lecture Platform.
Dr. W. A. Winters, father of Catherine Winters, the little Indiana girl who has been missing for nineteen months, will lecture at Fostoria, O., one evening next week.

Methodist Men Attention.
Don't fail to hear Dr. Arbuckle Friday, 7 o'clock sharp, at the First Methodist church. Ample time will be given to attend the entertainment at the High School.

Change of Hour.
The preparatory services to the celebration of the Holy Communion will begin at 7, not 7:30. Friday evening, at Holy Trinity Lutheran church. Those who wish to attend the lecture course at the High school will have ample time after the church service.

Return From Columbus.
Messrs. H. A. Stevens and R. W. Jones, who recently opened the "Buckeye Electric Shop" in 26 Pearl street, returned from Columbus Wednesday where they purchased a stock of electrical supplies for their new business.

Licking County Hunters.
M. R. Scott, clerk of Newark township has received a letter from Chief Game Warden John C. Sprake, advising that all applicants for hunters' licenses in Licking county, be fully advised as to the prohibition existing in this county on account of the foot and mouth disease existing among some cattle. All licenses will be good however to hunt in counties not affected by the quarantine provisions.

New Store a Success.
A new store installed in a shed used as a play house for the children on the rear of the lot of Edward Dunn in Bouna Vista street, proved a huge success. In fact it overhauled the place and it caught fire about 8:30 Wednesday night. The play house was completely destroyed.

Box 14 was sounded calling the East Newark and headquarters trucks to the scene. There was little left for the firemen to do but prevent the spread of the blaze.

Two Drunks Fined.
Two drunks arraigned before Mayor Bigbee Thursday morning pleaded guilty to the charge and drew fines of \$5 and costs each.

The Wettest Precinct.
The "wettest" precinct in Ohio at the recent wet and dry election was the island of Middle Bass in Ottawa county. Sixty-four electors voted on the prohibition amendment and all sixty-four voted "no." Middle Bass is a great grape growing island.

Former County Commissioner.
Evan T. Jones of Richmond, O., and a brother of Justice D. M. Jones of this city, was in Newark Thursday to attend the wedding of his niece, Miss Anna Richards of the Granville Road, to Dr. W. Harris Morgan of Columbus. Mr. Jones is a former county commissioner of Union county and has many old friends in Newark, all of whom were pleased to meet him.

Brightening Circle.
The Brightening Circle of The King's Daughters desire to thank the citizens of Newark for their generous support in their "Charity Day." The florists very kindly donated the greater part of the flowers used by the circle and thereby assisted them in raising \$85. The money will be used by the organization in their city charity work.

DRY LEADERS DIFFER AS TO NEXT EFFORT

MANY ANTI-SALOON LEAGUE TRUSTEES SAY PEOPLE ARE TIRING OF AGITATION

And Prohibition Would Stand More Chance in 1916 Than Next Year.

[ASSOCIATED PRESS TELEGRAM]

Columbus, Nov. 12.—Wide difference of opinion over determination of the time for waging the next campaign on state-wide prohibition developed among trustees of the Ohio Anti-saloon League when they gathered here for a meeting today. A majority of early arrivals appeared to wish the fight started immediately, and another prohibition amendment submitted at municipal and other local elections next fall.

A strong majority urged that the people are tired of the agitation of the liquor question and that the amendment would have better chance of being adopted if it is not submitted until the fall of 1916, which will be a presidential campaign year. A few Anti-saloon men even advocated waiting until 1917.

More than 4000 letters from dry workers over the state, most of whom urged a campaign next year, were submitted to the trustees and were expected to direct a strong influence toward calling another fight immediately.

Wayne B. Wheeler, superintendent of the league, is known to favor waging another campaign in 1915, though he had not openly declared this opinion today. He said the opinion of those who believe sufficient funds cannot be raised so soon after the recent prohibition campaign will have much weight with the board of trustees.

The board did not expect to reach a settlement of the question until late today.

EFFORT TO DIVORCE GRAPE INDUSTRY FROM THE SALOON.

[ASSOCIATED PRESS TELEGRAM]

San Francisco, Nov. 12.—Far reaching measures framed with the intention of divorcing the grape industry, wine and brewery interests from the saloon will be brought before the next legislature for passage by the California Grape Growers' association, according to a letter sent out today by a representative of that organization.

The enactment of an anti-treat law will be asked.

Midnight and Sunday closing also will be sought, but perhaps the most drastic of the measures framed is one which seeks to make it illegal for any wine maker, brewer, distiller or wholesaler to have any financial interests in a saloon.

Other legislation which will be sought by the grape growers to stem the tide of prohibition sentiment in the state are:

County option, except in cities of 5000 or more population; one saloon for each 1000 inhabitants in licensed territory; separate licenses to sell malt and fermented liquors as distinguished from distilled liquors; no saloon license to be issued to an individual, but only to property. The owner to be responsible for observance of the law; drastic laws concerning selling liquor to women, minors and intoxicated persons; limitations tending to eliminate dives, and laws pertaining to the prosecution of liquor law violators.

Leg or Limb?
Uncle Sol threw aside the letter he was reading and uttered an exclamation of impatience.
"Bogone," he cried, "why can't people be more explicit?"
"What's the matter, pa?" asked Aunt Sue.
"This letter from home," Uncle Sol answered, "says father fell out of the old apple tree and broke a limb!" —Youngstown Telegram.

Apron For Father.
Woman—"I would like to see some maid's aprons."
Child—"Oh, mother, is father to wear those when he dries the dishes?"—Judge.

When Webster Died.
Eloquent in life, Webster was sublime in death. He took leave of his household one by one, addressing to each fitting words of consolation. He wanted to know the gradual steps toward dissolution and calmly discussed them with his physician. At one time, awakened from a partial stupor which preceded death, he heard repeated the words of the psalm which has smoothed the death pillow of many a Christian: "Yea, though I walk through the valley of the shadow of death, I will fear no evil, for thou art with me; thy rod and thy staff, they comfort me." The dying statesman exclaimed, "Yes, thy rod—thy staff—but the fact, the fact I want!"—for he was not certain whether the words that had been repeated to him were intended as an intimation that he was already in the dark valley. Waking up again past midnight and conscious that he was living, he uttered the well known words, "I still live." Later he said something about poetry, and his son repeated one of the verses of Gray's "Elegy." He heard it and smiled. In the early morning Webster's soul went out with the tide.—"History of the United States."

The Nurse's Dilemma.
"Habit is a cable," somebody has written, with other and sundry remarks as to this selfsame cable becoming stronger—and at last you cannot break it. Be the last so or not, the first portion was never more aptly illustrated than one day recently in one of the board of health children's clinics.

The nurse in charge had fallen into the habit of calling her little patients "dear" and "dearie." Imagine her consternation when, turning to address the physician who was that day in charge, she started off with something like this:

"Dearie, don't you think?"

At this point half suppressed giggles from the other nurses and loud guffaws of laughter from the doctor himself brought the conversation to a sudden pause, while waves of crimson covered her face.—Detroit News.

Not Mumps.
A small boy of Nashville has been afflicted with mumps. The siege was unusually long and disagreeable. One evening recently an aunt who is a newspaper woman called up the boy's mother on the telephone to cancel an engagement. She was absent, and the boy himself answered the call.

"Tell your mother," said the aunt, "that I can't come out this evening because I have taken an assignment. Can you remember that?"

"Yes, ma'am," said the boy. "I'll tell her." When the mother returned he said to her:

"Mother, auntie telephoned that she couldn't come, because she is sick."

"Sick? Why, what's the matter?" she wanted to know.

"I forgot what it is she's got," said the boy. "It's something she has taken, but it isn't mumps." —Nashville Banner.

Why One Treaty Was Torn Up.
Many wars have flamed up from slight causes. One recalls the quarrel 'twixt that Venetian ambassador and that Turkish grand vizier of the past. The ratification of a treaty was in question, and the Turk asked the Venetian to swear in Moslem fashion—upon his beard and the beard of the prophet. The ambassador would not. "Venetians go no beards," he remarked. "No—do monkeys," replied the Turk, and straightway the treaty was torn up and war declared. And that interchange of compliments circulating round the heat cost 150,000 lives.

Supreme Test of Friendship.
An invitation to breakfast was, in Macaulay's opinion, one of the supreme tests of friendship. "You invite a man to dinner," wrote to Mrs. Harriet Beecher Stowe, "because you are acquainted with him, because it is his duty, but you invite a man to breakfast because you wish to see him, and you may be sure if you are invited to breakfast that there is something about you."

Woman and Work.
Women are today what they have been throughout the history of the race—good wives, good mothers, good pals, good sweethearts, good sisters. Women in industry are no new thing. Women have been in industry since time began, and the women who have gone out to factory, to office, to schoolroom, to hospital, to clinic, to platform, are but doing, outside the home, what their mothers and grandmothers did inside the home. To take three-quarters of woman's vocations outside the home and to leave her with manacled hands inside the home would be to let her beat her life out against the cave wall of a prison cell in an illness that would be madness.—From "The Autobiography of a Happy Woman."

Women and Men.
Woman began at zero and has through ages slowly unfolded and risen. Each age has protested against growth as unsexing woman. Men might spin and churn and knit and sew and cook and rock the cradle for generations and not be women. And woman will not become man by external occupations. God's colors do not wash out; sex is dyed in the soul.—Henry Ward Beecher.

CROWN TAILORS

46 W. Main City Building

Out of "Caste."
Many people, unless actually familiar with the ways and customs of the native of India, have little idea as to how superstitious many of these people are, especially with regard to their "caste" system.

In this district not very long ago a coolie while passing through the jungle was suddenly attacked and most severely mauled by a bear. His comrades, however, although they knew that a few miles distant there was a well equipped hospital, conveyed him to a village close by, where he was kept without medical assistance of any kind and in a blazing sun for three days.

When eventually brought into the hospital the man's plight may be better imagined than described. The surgeon and his assistants managed to keep him alive, but his face is so disfigured that he is known in the district as the "reache wallah" (bear man). The most extraordinary thing about this case is that the unfortunate person was during the time he lay in hospital considered by the fraternity to be unclean, with the result that his own wife was, through attending to his requirements, thrown out of "caste."—India Gazette.

CROWN PRINCE

(Continued from Page 1.)

Opposing forces were disposed in this locality, but the town is on the direct road to Dunkirk, and if the German forces can debouch from it, the allies probably will be compelled to fall back to new positions in their efforts to block the way to the coast.

The allies still hold Ypres where the fighting evidently is of the most desperate character. Shells constantly are falling in the town, which also is the object of aeroplane attacks.

Armistices, which has been constantly a bone of contention, being first occupied by the invaders and then by the defenders, has now become too hot for occupation by either side. The Germans are on the hills on one side of the town, and the allies are attacking it unceasingly from the other side.

The official communication given out in Paris last night claims that the invaders throughout the day continued their efforts of the day before without achieving any fresh result and declares that the Germans are making vain attempts to move out from Dixmude along the left bank of the Yser.

For the moment the Russian pursuit along the Silesian frontier has slackened. The Germans are reported

ed in London to be making efforts further to strengthen their present line of fortresses, anticipating a Russian invasion along the line of fortresses between Graudenz, Thorn, Posen and Cracow. This will enable them to bring up reinforcements so rapidly that the German center is not likely again to be exposed to the same weakness which led to the retreat before Warsaw. The rumor still continues persistently in London that the German crown prince was in command of the German center which gave way before the Russian assault outside of Warsaw and he is being blamed for this reverse.

A despatch received here from Petrograd declares that the dissensions between General von Hindenberg, commander of the German forces in east Prussia and General Dankl, the Austrian commander are so acute that the Austrian officers are refusing longer to co-operate with the German staff.

Vienna officially admits the withdrawal of the Austrians from Western Galicia and the complete investment by the Russians of the Przemyśl fortress, but up to yesterday the Austrian general staff was reporting continued success in the Russian invasion of Serbia.

Russian army headquarters in the Caucasus reports only minor actions, with the Russians still occupying the points in Armenia previously captured by them.

CLOGGED NOSTRILS OPEN AT ONCE---TRY MY CATARRH BALM

Instant Relief When Nose and Head are Clogged from a Cold, Stopped Nasty Catarrhal Discharges, Dull Headache Vanishes.

Try "Ely's Cream Balm."

Get a small bottle anyway, just to try it—Apply a little in the nostrils and instantly your clogged nose and stopped-up air passages of the head will open; you will breathe freely; dullness and headache disappear. By morning the catarrh, cold-in-head or catarrhal sore throat will be gone.

End such misery now! Get the small bottle of "Ely's Cream Balm" at any drug store. This sweet, fragrant balm dissolves by the heat of Newark, Ohio.

the nostrils; penetrates and breaks the inflamed, swollen membrane which lines the nose, head and throat; clears the air passages; stops nasty discharges and a feeling of cleansing, soothing relief comes immediately.

Don't lay awake to-night struggling for breath, with head stuffed; nostrils closed, hawking and blowing. Catarrh or a cold, with its running nose, foul mucus dropping into the throat, and raw dryness is distressing but truly needless.

Put your faith—just once—in "Ely's Cream Balm" and your cold or catarrh will surely disappear.

LAZY

AND INCOMPETENT SUPERINTENDENTS OF CHILDREN'S HOMES GIVEN SCORING.

At Session of Ohio State Board of Charities and Corrections in Columbus.

ASSOCIATED PRESS TELEGRAM
Columbus, Nov. 12.—Lazy and incompetent superintendents of children's homes in Ohio were criticised severely by C. V. Williams, director of the department of children's welfare, board of state charities, at today's session of the Ohio Conference of Charities and Correction, which opened yesterday. Mr. Williams explained that his department recently created, does not seek to terrify superintendents and officials of homes, but that it expects to demand that those in charge of such homes keep in touch with progressive ideas. Many children's homes of the state do not take perfect care of their wards, they declared. They place them in private homes and then neglect to make further investigation to ascertain what care and education they are given.

Judge George S. Adams of the Cleveland juvenile court, addressed the conference on the subject, "The Juvenile Court and Mothers' Pensions." Judge Krichbaum of Canton and Judge Samuel L. Black of Columbus, also discussed juvenile court work. Departmental meetings were held in a number of auditoriums in Columbus during the afternoon.

Director Williams told how the department of Children's Welfare, recently created, had discovered children's homes for which there was no real demand but which were used by the managers to solicit funds for their "beautiful work."

"A certain institution exists in this city," he said, referring to Columbus, "which was organized to care for old folks and children. An investigation instituted by the board of state charities revealed the fact that all the old folks had died and that there were but six children in the institution, three of whom were children of the superintendent."

WIRELESS

STATION WILL BE CONSTRUCTED AT ONCE FOR USE OF DENISON UNIVERSITY.

Making Preparations for Week of Prayer—Social News—Granville Personal.

(Special to The Advocate)
Granville, Nov. 12.—Dr. P. Biefeld, director of the Swasey Observatory of Denison University, will have charge of the new wireless station, which is to be constructed at once in connection with the Department of Astronomy. This important addition to the equipment of the college is made possible by the generous gift of Dr. Swasey of Cleveland, who built and equipped the Swasey Observatory, and by a liberal appropriation made by the board of trustees. Two steel-trussed poles, seventy-five feet high and two hundred and fifty feet apart, will support the antennae. The main object of this installation of a wireless outfit is to make it possible for the Department of Astronomy to receive time signals from the great government station located at Arlington, near Washington. The station at Granville will have a receiving radius of about twenty-five hundred miles. As the Arlington station is in communication with the Eiffel Tower and other important stations of Europe, it means that this county and Granville specially will have much more nearly accurate time than ever before. The wave lengths of the Denison apparatus will be 2500 meters. This will make it possible to conflict with the commercial stations where the wave length is 1500 meters.

The cabinets of the Christian Association and the officers of the college have arranged the plans for the Week of Prayer beginning January 12. They have unanimously extended an invitation to Dr. Charles W. Gilkey, pastor of the Hyde Park Baptist Church of Chicago, to take charge of these services. His acceptance has been received. He will deliver addresses on the evenings of January 12, 13 and 14, and will deliver the annual address the morning of January 14, which is the Day of Prayer for Colleges. It is said that Dr. Gilkey is in greater demand for outside appointments than any other man in the denomination.

D. R. W. Chamberlain and Dean Judson were delegates from Denison at the inaugural of President W. W. Boyd of the Western College for Women, at Oxford, November 1 and 2. Miss Judson, who represented Shippensburg College, addressed the students of the Western College Thursday morning, November 5.

Mr. Arthur Eldridge of Franklin, O., arrived in Granville yesterday for a short visit with his daughter, who is a student in Shepherdson College.

Miss M. E. Penner left yesterday for Chillicothe where she will be the guest of Miss Margaret Falkner during the coming week.

Mrs. R. S. Colwell entertained Mrs. Ella Pollett Turner of New York at luncheon yesterday.

Dr. and Mrs. Frank Carney, delightful, entertained a few friends at dinner last evening at their home on College Hill, complimenting Prof. Hollis of Ohio State University, who gave an illustrated lecture in Recital Hall at 8 o'clock, on "Glaciers."

Mrs. Albert Norris will entertain the W. C. T. U. members Friday afternoon at their home on the corner of Cherry and Maple streets. The topic discussed will be "The Present Situation."

It doesn't seem to require any more provocation for one woman to kiss another than to roast her.

NOTICE TO HUNTERS.

The open hunting season is near at hand, and owing to the fact that the state has quarantined a number of farms against the hoof and mouth disease, we would respectfully ask that the hunters kindly refrain from trespassing on our lands south of this city, as dogs, and even men, can carry the germs away from one place to another. We both approve of hunting and like the sport ourselves, but request that all hunters respect our wishes this season.

The editor of this paper will be pleased to learn that there is a cure for the disease known as Catarrh of the bladder. It is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Bile's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. It cures, without any of the usual painful and debilitating effects of the disease, and cures the patient without building up the constitution and restoring the nature in going to work. The proprietors have so much faith in its curative powers that they offer one hundred dollars for any case that it fails to cure. Send for list of testimonials.
